

ARIZONA COURTLINES, INC. SPECIFICATIONS

DC-WDT (ACI MODEL #) DIVIDER CURTAIN - WALK DRAW (Track & Trolley)

TRACK / ROLLERS / STORAGE UNIT

Curtain track shall be enclosed, formed aluminum channel to protect rollers from collecting dust, dirt, etc. which would hinder free operation of the curtain. Heavy Duty ball bearing rollers shall be located every 12" from each end of the curtain. Each curtain is provided with a wall attachment unit, for storage when not in use.

UPPER CURTAIN (NETTING)

The upper section of the curtain is made from mesh woven vinyl and polyester. Woven mesh material shall have a certificate of flame resistance from the State of California.

LOWER CURTAIN (SOLID)

The lower solid vinyl section of the divider curtain shall extend 10 feet above ground. Vinyl cover shall be 22oz per square yd. vinyl coated polyester with 1000-denier polyester base fabric. Vinyl covering is available in yellow, beige, blue, red, and green. Solid vinyl material shall have a certificate of flame resistance from the State of California (Registered fabric No. 140.01).
