

ARIZONA COURTLINES, INC. SPECIFICATIONS

T B P - 2 (ACI MODEL #) TETHERBALL POST W/ CHAIN AND QUICK RELEASE (2-3/8" DIAMETER POST)

Tetherball post shall be fabricated from 2-3/8" diameter galvanized steel tubing. Tubing shall extend 10'-0" above playing surface. For sleeve type posts post shall extend 9-1/2" below playing surface. For permanent type posts post shall extend 2'-0" into concrete footing (by installer). Post shall have a permanent cap, which cannot be removed (to prevent water damage and improve appearance). Post shall be equipped with an eyelet for cord and ball attachment. Provide snap hook for quick release, removable chain link for chain attachment, and 38" of 7/32" chain. All hardware shall be corrosion resistant (zinc plated). Post shall have a galvanized finish. Powder coat finish optional (specify).
